# Daycare Life

## Did You Know?

The vast majority of dogs may not enjoy the daycare setting. Daycare is like a party - tons of fun, lots of stimulation and activity, and excitement. Not all dogs (or humans, for that matter) enjoy that.

## Daycare IS a Good Fit For:

- Dogs who thrive in a busy environment
- Dogs who understand dog language
- Dogs who listen to their human and dog friends
- Socially tolerant dogs
- Dogs who can regulate their emotions and impulses
- Dogs who are confident and social

## Daycare is NOT a Good Fit For:

- Dogs with health concerns
- Dogs that would prefer human company
- Dogs with high anxiety
- Dogs that are highly socially selective
- Dogs that don't have basic obedience skills
- Dogs that lack impulse control
